

ABSTRACT

A harness for a quadruped animal including a chest strap (12) which in use of the harness lies across the chest of the animal in front of the forelegs, the harness including an attachment (28) for a leading strap (30), the attachment (28) being slidably mounted on the chest strap for movement therealong. Each end of the chest strap is attached to a trunk loop (14) which in use of the harness passes around the trunk of the animal behind the forelegs. The trunk loop (14) comprises a back strap (18) which in use of the harness lies across the back of the animal affixed to a lower strap (20) which in use of the harness passes under the animal behind the forelegs.
